Digging New Shaft.

The Nevada Consolidated mining company has started a new shaft and the workings are now down 35 feet. This shaft was started in advance of the drift which lately gave the management so much encouragement. The company has suspended work upon its Peavine property until the snow disappears.

Splendid Furniture.

Chas. Dreyer, proprietor of the Oberon, formerly the Reception saloon, has received from San Francisco the finest bar fixtures ever brought to the State. The woodwork is mahogany and English oak and is hand carved. The mirrors are enormous.

Real Estate Sold.

Davenport, the real estate man, sold today the residence of Charles Berquist on Second street to Mrs. F. Bennett. Consideration \$2,200.
Mr. Berquist and wife will shortly leave for Oregon where they will permanently reside.

RENO MAN WEDS IN CHICAGO

Mr. John Sunderland, Jr., Married to Miss Beulah Stubbs Last Evening.

Special to The Journal:
CHICAGO, Feb. 18.—A quiet home wedding of this evening was that of Beulah, daughter of Mr. and Mrs. J. C. Stubbs, 824 North Park avenue, to John Sunderland, Jr., of Reno, Nev. The Rev. John D. Leek of Grace Methodist Episcopal church, officiating. White satin and embroidered chiffer trimmed in duchesse lace formed the bride's gown, and her bouquet of lilies of the valley.
Her sister, Miss Mary Spayd Stubbs, served as maid of honor, wearing blue liberty silk trimmed with cream lace. She carried white roses.
The ceremony, which took place at 9 o'clock, was witnessed by about sixty guests. John J. Sullivan supported the bridegroom as best man.
Smiley had charge of the diningroom and Thomas' orchestra played during the reception. The newly-wedded pair will reside in Reno, Nevada, where they will be at home after March 1st.

MINING IN THIS STATE

Culled News of Nevada's Most Important Industry.

Sierra Nevada was yesterday assessed 10 cents per share.

In the Ruth mine, in White Pine county, some of the richest copper ore ever found in Nevada has been discovered. At 300 feet rich supplies of copper were found.

Samuel Jones, a brother of Senator Jones, has taken a bond on Phil Curran's quartz mine near Columbia Hill for \$10,000. A practical miner named Williams has arrived from Nevada to take charge of the work which Mr. Jones intends to do. It is believed by many that the property will turn out well with proper development work as assays made have demonstrated the fine quality of the rock.—Grass Valley Union.

Omaha mining men have bought the Smuggler mine in Good Hope district, Elko county. These mines have produced upward of \$2,000,000 and there is still a great mass of paying ore in sight. Assays give the poorest ore as running 192 ounces in silver and \$12 in gold to the ton, while the richest yielded 10,000 ounces in silver and good values in gold. A concentrating plant will be put in to handle the low grade ore.

An "old prospector" writing to the Salt Lake Herald from Tonopah, says there is a world of wealth hidden beneath the sheet of porphyry and trachyte, with which the camp and surrounding country is covered, but great as the camp has grown he expresses the belief that it will be entirely outshone by the old Liberty district, about fifteen miles to the north.

Publication not Refused by The Journal.

An article on vaccination appeared in last evening's Gazette prefaced by the statement that it was refused publication in The Journal. This is a misstatement. Dr. Hogan submitted the article and was told that it was too long to appear in a single issue, but would be published in sections. This the Doctor declined to permit. Then the suggestion was made that the article be condensed. This the Doctor also declined to do, saying that there was not a line in it that he could or would eliminate.
The Journal wishes it positively understood that it agrees, as far as its medical knowledge will permit it, with the learned theses prepared by Dr. Hogan, and only regrets its inability to give it space.

CARPENTERS' ATTENTION!

The sixty-two members of Local Union, No. 971, join in extending a cordial invitation to all carpenters to be at our next meeting, February 24th, that being the last before closing of the charter, after which membership fee will be \$10. We also extend an invitation to all tradesmen to an open meeting on the same evening for the purpose of forming a trades council. Brick and stone masons, plasterers, shinglers, plumbers and tanners, and painters and paper hangers.
By order of COMMITTEE.

NOTICE, L. O. T. M.

In compliance with the order of Chief of Police Brown all members of Reno Hive, No. 1, L. O. T. M., are hereby notified that there will be no meetings of the Order until further notice. All life-benefit members will please call upon the R. K. and pay assessment.

CAPITAL COMING TO NEVADA

Railroad Building Projected Through the Sagebrush State.

Capital is going into Nevada these days in unlimited volume for investment in the development of its mineral resources. The extraordinary wealth developed in Tonopah during the past year has helped to give the State a genuine mining boom. The construction of railroads through new territory will encourage investment immensely and create business for the transportation companies which enter the field.

The new Gould project makes Nevada the theatre of railroad activity for several years to come. The Salt Lake and Los Angeles railroad, controlled by Senator Clark of Montana, will interest the southeastern section of the State and open up several heavily mineralized ranges, whose deposits cannot be worked profitably now because of the transportation facilities. The Gould road will, on the other hand, open up the country lying between the Central Pacific and the Salt Lake lines, tapping many important mining districts in its course and a large section of the central part of the State which the mining prospector has not yet entered.

ALL AROUND THE STATE

A Few Gleaned Paragraphs of Nevada News.

Mrs. E. D. Boyle is now on the road to recovery.

A survey from Ilex on the Santa Fe railroad to Searchlight in White Pine county has been completed and a railroad will be built from that point to Searchlight.

The reporter of the Knights of Honor, on February 15, received a warrant for \$2,000 for Mrs. S. J. McQuarrie, for the insurance of her husband, the late W. C. McQuarrie, who was killed by a runaway team near Dayton on January 2, 1902.

It is stated that during the recent session of the United States grand jury at Carson evidence was presented against nine different parties in Eureka county for selling whisky to Indians. Seven are said to be residents of Eureka, and the other two live at Ruby Hill.

Another Harrison.

The J. Harrison charged with robbing the Delamar mill is no relation of the Harrison family in this city. This is stated because of false rumors that have been given circulation.

THE NEWLANDS AMENDMENT.

THE ways and means committee of Congress, says the Doylestown, Pa., Democrat, has determined upon the repeal of the war revenue tax bill enacted at the time of the Spanish War. When the recommendation to abolish the war taxes was before the Committee, Mr. Francis G. Newlands, of Nevada, offered an amendment providing that every industrial corporation engaged in manufacturing, whose annual receipts exceed \$1,000,000, should be compelled to pay a special tax of one-tenth of one per cent. on all gross receipts in excess of \$1,000,000 per annum. The amendment further provided that every corporation of the above magnitude should render, at the close of each year, a complete statement of its capital and surplus, receipts, expenses and profits, and amounts and rates of wages paid, the statistics so provided to be classified and published by the Commissioner of Internal Revenue.

Although the Committee rejected Mr. Newlands' amendment by a party vote, he states that he will offer it again when the measure is called up in the House. Representative Newlands declares that his amendment is in complete accord with President Roosevelt's recommendation of publicity for the trusts, and he is of the opinion that it would insure a contribution from those industries which the government is protecting at a rate averaging close to 50 per cent. of between \$5,000,000 and \$10,000,000 a year, and would also insure that publicity which the President so strongly advocates and which is essential before intelligent legislation can be enacted, either for the control of the trusts or the adjustment of the tariff rates.

Should the war revenue tax be repealed without the adoption of such an amendment as that of Mr. Newlands, the burden of taxation will fall on the poor and middle classes, the necessities of life being heavily taxed while the gigantic monopolies will contribute practically nothing to the support of the government which deals so bountifully with them.

If the Republicans are sincere in their representations they will adopt this amendment. Its results in the way of information published, will merely serve, provided their contentions are correct, to prove their correctness, that the trusts are not injurious to society and an injustice to the large mass of consumers and that the time has not come when a revision of the tariff is essential to the future prosperity of the country.

Of course, if the Republicans are mistaken in their claims, the information will prove it and if they are as honest and patriotic as they claim to be they will only be too glad to have it proven to them that their present course is wrong. At all events the people of the country will note the policy of the Republican party in this Congress with intense interest and its action in regard to the trusts will insure success or defeat at the polls next fall.

MISS ROOSEVELT'S VISIT.

THE JOURNAL, like the Montpelier, (Vt.) Argus is not disposed to credit the report that President Roosevelt waited to hear from the country before deciding to grant his daughter's request to attend the coronation of King Edward. It is quite conceivable that Senator Hanna, who is chairman of the Republican national committee, may have advised him not to do so. It is not like Roosevelt, as his friends believe in him, to be concerned about the political results of his actions. It is none of the public's business where his daughter visits. If she were going to the coronation as a representative of the government in any sense, or as a representative of the President's family there would be occasion for a protest from those who do not believe such attention should be shown to royalty. As we understand it she will go to London as the guest of Ambassador Whitelaw Reid, representing nothing but the desire of a healthy American girl to see what will doubtless be the spectacle of the century.

Edward's coronation will be a big thing, bigger than Barnum's circus. It is of about as much consequence in public affairs as that aggregation of talent. It is an anachronism. Crowning a monarch who does not rule is as sensible as putting a fancy speeding harness on a truck horse.

We can understand the desire of people to witness the spectacle. Its like may never occur again in the world's history. We do not see why the United States should send any special representatives to witness it. It would not add greatly to the burdens of Ambassador Choate if he should attend to that job in addition to his regular duties. He won't be very busy with diplomacy at that time.

Twenty-five different men have been at various times inaugurated President of the United States, but we never knew of England sending a special ambassador to look on and see that it was done properly. England is supposed to have conceived a greater degree of friendship for the United States in recent years. She might have demonstrated it at the second inauguration of McKinley if she did not feel like sending an ambassador the first time.

The fact is the whole affair is a useless lot of humbug. If any individuals want to see it they have a right to, but for the United States to send anyone to witness it is lunacy.

AN exchange makes the assertion that U. S. Senators are elected by the trusts, and as a remedy for the evil, they should be elected by a direct vote of the people. Perhaps it was thought too difficult to accompany the assertion with a proper explanation of just how it is being done.—Bodie Miner, Ind.

If the Index editor means how the trusts elect Senators through legislatures, he would probably would have gained the information he seeks if he had been at Carson City at the last Senatorial election in this State. Col. Chinn, an emissary or missionary of the sugar trust would doubtless have delighted in furnishing the information desired.

THE assurance that young Theodore Roosevelt is recovering from his recent dangerous illness is gratifying to the whole country. Not that he is regarded as any better than any other well bred American boy or that greater value should be placed upon his life, but he is a son of our President, which position is the pinnacle of aspiration in our free democracy, and the people naturally reverence the office. The occupants of the White House are, therefore, the objects of popular solicitude, interest and regard. Young Roosevelt's recovery is particularly gratifying at this time when the President and the people are preparing to receive a member of the royal household of Germany, who comes to us bearing messages of good will from the ruler of the people of a great empire.

CUBAN sugar can be sold in New York only at a loss of six-tenths of a cent on every pound. With a reduction of 25 per cent on the present duties it could be sold only at a loss of one-fifth of a cent on every pound. And a fifty per cent cut in duties would only leave a very narrow margin of profit to the Cuban planters. President Palma states that a reduction of anything less than 50 per cent on the present duty on sugar exported "will be of no avail to relieve the distress that looms before us." The duty of Congress as stated by President Roosevelt in his message and now urged by him in that body appears to be plain. We are responsible for depriving the Cubans of the market they had in Spain, and we should feel bound to compensate them for the loss.

SEA captains say that the deflection of the Japanese current to the east is changing the climate of Alaska. This ought not to go too far. The change ought to be regulated so that the climate may be a happy medium between the present frigid weather of Klondike and the sweltering heat of the South African gold fields.

ADVERTISEMENTS.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, Syrup of Figs, manufactured by the California Fig Syrup Co., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

NEWSY FLORISTON NOTES

A Serious Wreck Narrowly Avoided.

As passenger train, No. 3, with a double header pulled out of Floriston Sunday evening she struck a huge rock which was pushed ahead of the pilot for one hundred yards before the train could be stopped. The rock had rolled down from a steep embankment and had first broken the rails on the sidetrack and then rolled over on the main track.

Had it been struck by an eastbound train, or a westbound train going at a high rate of speed a terrible wreck would have resulted and the train would have undoubtedly landed down a steep embankment into the Truckee river.

Rear End Collision.

The swing train which left Reno Sunday morning at 8:20 ran into the rear end of a gravel train at the Mystic siding. The caboose of the gravel train was completely smashed and two other cars were derailed. Some damage was also sustained by the swing engine.

Luckily no one was severely hurt. This was owing to no one being in the caboose at the time it was struck. A wrecking train from Truckee was soon on the scene. Traffic was not interfered with, as trains were able to pass on the sidetrack.

Source of Supply.

It has been such a mild winter at Duffy's camp, where the wood is cut and flumed to Floriston, that the usual force of men could easily have worked all winter. At present writing there are twenty-five engaged in cutting wood. In a few months Mr. Duffy, who is spending the winter in Reno, will employ a large force of men.

Social Club Formed.

Several of the socially inclined young men of Floriston got up a weekly dance which is held in the school house every Saturday night. Next Saturday the management will give a masquerade ball. A general invitation is extended to the good people of Reno to attend.

Putting in System.

L. B. Krieger of San Francisco, assisted by a force of men, is engaged in putting in the Grinnell automatic fire sprinklers through the buildings of the Floriston Paper mills. A description of the same will be found elsewhere in this communication.

A Good Harvest.

The owners of the ice ponds along the Truckee river have let the water out for the season. They all rejoice in having put up a large quantity of excellent ice, so we expect to keep cool this season.

New Management.

J. S. Means, formerly manager of the Floriston hotel, has severed his connection with the same and has gone to San Francisco. J. J. Hardie has been appointed to succeed him.

"Leader of the Dailies."

J. F. Salcido, a representative of the Journal, paid your correspondent a call yesterday and informed him that he had succeeded in getting quite a few subscribers to The Journal.

Resulted Seriously.

Albert Baker, an employee of the mill, recently had his finger amputated from the bite of a cat. Amputation of the first joint had to be performed in consequence.

Auxiliary Power.

Owing to a lack of water in the Truckee river, the paper mill has not been able to run all departments night and day and there is talk of putting in steam power.

Visited Reno.

Marion Cooper, our genial postmaster, and J. A. Buchanan of the Floriston store, spent Saturday night in Reno, enjoying the sights of Nevada's metropolis.

Tell from the Flume.

Nell Peterson of Duffy's camp, above Floriston, sustained a severe injury to his ankle by falling off the flume which conveys wood to the paper mill.

Club Representatives.

The Nevada club is ably represented in Floriston by Messrs. M. S. Goodman and Walter K. Bradberry.

New wall papers mean new prices. See for yourself—Porteous Decorative Co.

PIANOS ON EASY TERMS.

And at prices to suit any one. The prices range from two hundred and twenty-five dollars up—twenty-five dollars down and the balance in ten-dollar monthly installments.

These pianos are all fully guaranteed and have the latest improved action and are the style upright. No one on earth sells better pianos or better-toned pianos, or gives more value for the money than C. J. Brookins. Brookins has lived and sold pianos in Reno for thirty years. Why not buy your piano of Professor Brookins, who knows all about pianos and has made them a great study for thirty years? Call at 224 Virginia street, C. J. Brookins' store.

Automatic Device to Extinguish Fires

The automatic sprinkler now being installed in the mill of the Floriston Pulp and Paper company by L. B. Krieger will be completed some time in May, taking over four months to put in the equipment. The elevated tank which is now being constructed will be one hundred feet high and will hold 20,000 gallons of water. It is merely a reserve water supply in case the water in the large flume should be shut off, where the main supply will be obtained.

Twenty-six thousand feet of pipe will be used throughout the big mill. The entire cost of the plant will amount to in the neighborhood of \$15,000. Many of the large mills on this coast are now using this system, but there are none in operation in Nevada. The Hobart mill was equipped with the same system last year. It is claimed that the installation of the Grenville system will pay for itself in the reduction in insurance rates within three years. The purpose of the sprinkler is to arrest a fire when it first starts through the agency of the heat itself, this being entirely automatic in that it requires no labor to operate it.

(The exigencies of the "makeup" compels a shortening of the correspondent's interesting description of this device.)

POSITION OF REPUBLICAN PARTY TERSELY OUTLINED

A Communication Stating the Attitude of that Party on the Issues Now Before Congress.

Ed. Journal:

The Republican leaders are not happy over the tariff situation. In fact they are out of harmony. The lack of perfect concord was first manifested by the failure of the Senate to ratify the reciprocity treaties negotiated by the late President McKinley, who was himself a high priest in the temple of protection. He saw plainly, however, that we had got beyond the industrial condition which merely required that foreign goods should be kept out of free competition with American goods in the home market. On some lines we were producing far beyond our own consumptive capacity and for the surplus we must find markets abroad. It was with this condition in view that he so earnestly advocated reciprocity. He strongly urged upon his party the necessity of making reasonable commercial concessions to other countries in order that our own surplus products might find a freer vent. Thus far, his party while professing to endorse his policy to the letter, has failed to take the first step toward carrying out this feature of it.

TRUST-CONTROLLED PRODUCTS.
Mr. McKinley had not gone the length of proposing the removal of duties from trust-controlled products, but nothing can be more certain than that he would very soon have reached that point, for the two propositions are closely related. The huge industrial combinations which have been made during recent years, besides oppressing the consuming public in this country, are a grave menace to our foreign trade. Operating at home behind the impossible wall of the tariff they sell their products here at prices which enable them to make heavy cuts in export prices, and thus invade foreign markets under circumstances which place their competitors at a serious disadvantage. Mr. Schwab, the head of the steel trust, in his testimony before the Industrial Commission, admitted that the export prices of our leading manufacturers were, upon an average, about 25 per cent below the prices charged to dealers in the home market. This is the condition of which foreigners so bitterly complain, and upon which they base their demand for commercial reprisals. Upon these questions lines of cleavage are beginning to appear in the Republican party, and among its representatives in Congress the division is becoming clearer day by day.

Some are in favor of modifying the rigor of the tariff by reciprocity treaties, and some are opposed to making any concessions whatever; some take a further step in advance and urge the removal of duties from articles the production and prices of which are controlled by the trusts, while others are opposed to any such action. It need scarcely be remarked that the extreme tariff men are much the more numerous and determined.

REPEAL OF WAR TAXES.

The recent action of the Committee on Ways and Means in reporting a bill for the repeal of the war taxes, may be taken to indicate the prevailing trend of Republican Congressional thought. The purpose of this move is to so reduce the revenues of the government as to enable the high protectionist to argue plausibly that any lowering of duties through reciprocity or anti-trust measures will endanger the condition of the Treasury. They plead now that the "war taxes" should be removed first. Of course the whole contention is illogical and insincere. The lowering, or even the total removal of duties from trust products will scarcely reduce the revenue at all for those products are not imported to any extent worth considering.

RECIPROCITY.

After the war taxes are all repealed there will still remain a surplus of revenue estimated at \$30,000,000 annually. The reciprocity idea, as now proposed, only involves a reduction of one-fifth in the rates of duty. This would result in some additional imports, and it is easy to see that with a surplus of \$30,000,000 to begin with, a great deal could be done along this line without creating a deficit.

TAX ON CORPORATIONS.

Besides, if it is thought that there is any real danger of a shortage of revenue, such contingency can easily be met, in good part at least, by adopting the Newlands proposition to reduce the tax on sugar and petroleum refiners from one-fourth to one-tenth of one per cent on gross receipts, and then extend it to all industrial corporations, the receipts of which exceed \$1,000,000 annually.

This measure, with only slight modifications, has been urged insistently by Mr. Newlands, both on the floor of the House and in Committee.

Its effect would be to provide a goodly sum in revenue and at the same time place the burden where it rightfully belongs—on the shoulders of giant corporations that are realizing enormous profits upon their highly protected industries. It is almost needless for me to say that in his advocacy of the measure Mr. Newlands has encountered a solid Republican opposition, with the Democrats equally solid in support.

The significance of the Republican opposition is emphasized by the circumstance that the measure, as formulated by Mr. Newlands, requires these corporations yearly to make sworn statements of the nature of their business, the number of factories owned or operated by them, the capital, surplus, expenses, wages, taxes, etc., the purpose being to obtain the fullest publicity as to the business and methods of these combinations, and thus lay a foundation for more comprehensive legislation designed to curb their overgrown and still growing power.

THE BABCOCK BILL.
The Babcock proposition to reduce the duties on iron and steel goods has some Republican support, but the present indications are that the measure will never be reported by the Committee on Ways and Means, and that if by some miracle it should be, the House Committee on Rules will never allow it to come to a vote in that body.

Mr. Babcock has twice offered his bill as an amendment to the one repealing the war taxes. The first time, some weeks ago, it received the solid Democratic vote with that of Mr. Babcock himself, but it was beaten, and everybody supposed that the measure was dead for the session. On Monday, and, not very judiciously, as to time, he again offered his bill. Mr. Newlands was absent, attending a meeting of the Irrigation Committee, and Mr. Cooper was somewhere else. Neither had any intimation of Mr. Babcock's purpose. But there were two Republicans, Hopkins and Long, also absent, and when the vote was taken, the Committee stood 7 to 6 against the measure, Babcock and Tawney, Republicans, voting with the Democrats. If the full Committee had been present the result would have been the same. If Newlands and Cooper had been there and the two Republicans away, the Democrats would have won a temporary but barren victory, for a clear majority of the Committee being opposed to the measure, the vote in favor of the Babcock bill could easily have been rendered nugatory. Indeed, it is considered highly doubtful whether Mr. Babcock, himself, would carry the fight into the House, he being a strong partisan, and chairman of the Republican Congressional Committee. Be that as it may, it is morally certain that the Committee on Rules will never give him a chance, and if he had succeeded in the Committee, the bill would have died on the calendar. As the Republican party is now organized and led there is no hazard in saying that it will never intentionally injure the trusts, which Mark Hanna so frankly declares are a benefit to the country.

HAD TO CONQUER OR DIE.

"I was just about gone," writes Mrs. Rosa Richardson, of Laurel Springs, N. C., "I had consumption so bad that the best doctors said I could not live more than a month, but I began to use Dr. King's New Discovery and was wholly cured by seven bottles and am now stout and well." It's an unrivaled life-saver in Consumption, Pneumonia, La Grippe and Bronchitis; infallible for Coughs, Colds, Asthma, Hay Fever, Croup or Whooping Cough. Guaranteed bottles 50c and \$1.00. Trial bottles free at S. J. Hodgkinson's drug store.

WORKING OVERTIME.

Eight hour laws are ignored by those tireless, little workers—Dr. King's New Life Pills. Millions are always at work, night and day, curing indigestion, biliousness, constipation, sick headache and all stomach, liver and bowel troubles. Easy, pleasant, safe sure. Only 25c at S. J. Hodgkinson's drug store.

Beauty is Health.

Walnut Lake, Ark., June 8, 1930.
I thank you for the benefit I received from your advice and the Wine of Cardui I took in my terrible condition. My life was no pleasure to me at all and I was of no use to anybody. After receiving your advice and medicine I commenced taking it and began immediately to improve. The pains left me and the menses, which came at the correct time, continued three days. I have gained strength and my weight has increased. My husband says the medicine has made me better looking because I cured her of those terrible pains. But she is no exception.

Womanly health means bright eyes, rosy cheeks, clear complexion and elasticity of form. This is the youth unmeasured by years—the beauty of perfect womanhood. Beautiful women are happier and get more out of life than their sisters whose faces indicate suffering. Wine of Cardui makes Mrs. Mannell "better looking" and infinitely happier because it cured her of those terrible pains. But she is no exception.

WINE OF CARDUI

Is giving thousands of women health, beauty and freedom from the dragging pains which made their lives so miserable. Van faces, haggard eyes and emaciated forms are the results of suffering. What suffering can compare with the torture of irregular menstruation, leucorrhoea and falling of the womb! Beauty flees quickly before the ravages of such disease. The sharp pains of falling of the womb deepen the crow tracks in the face. Menstrual irregularities rob the eye of its fire and the complexion of its transparency. Leucorrhoea drains the body of its strength, the Wine of Cardui restores the natural beauty, brightens the eye, clears the complexion, rounds out the figure and brings back the vigor of health. Every druggist in this city handles \$1.00 bottles of Wine of Cardui.
